

**AGENDA
CITY COUNCIL MEETING
9/13/2016
5:00 P.M.**

1. OPEN MEETING

2. INVOCATION: Brad Odom, East Milton Assembly of God Church

3. PLEDGE OF ALLEGIANCE

4. **APPROVAL OF AGENDA FOR ADDITIONAL ITEMS**

- Recommendation for Additional Items from Staff
- Recommendation for Additional Items from Council
 - (a) Council Reports

5. APPROVAL OF MINUTES

1) August 9, 2016 Regular

6. RECOGNITIONS, SPECIAL PRESENTATIONS AND AWARDS:

7. PUBLIC HEARINGS/MEETINGS:

- 1) 1st Public Hearing for
- i. Adopt Tentative Millage Rate of 3.2373 for FY 2016/17 scheduled for 5:01 p.m.
(Requires vote)
 - ii. Adopt Tentative Budget *(Requires vote)*

8. PERSONS TO APPEAR:

9. GENERAL CONSENT AGENDA

- 1) As forwarded from Executive Committee Meeting held on Tuesday, September 6, 2016 at 4:00 p.m.

10. MILTON PLANNING BOARD

- 1) The Board's next scheduled meeting is Thursday, October 6, 2016 at 5:00 p.m.

11. ORDINANCES, RESOLUTIONS & PROCLAMATIONS:

- 1) Ordinance #1436-16, Medical Cannabis Moratorium (*2nd Reading*)
- 2) Ordinance #1437-16, Stewart Street Rezoning (*2nd Reading*)
- 3) Ordinance #1438-16, Adoption of Budget for FY 2016/17 (*1st reading*)
- 4) Ordinance #1439-16, Adoption of Pay Plan Schedule (*1st reading*)
- 5) Resolution #1376-16, Authorizing an Amendment to the Traffic Signal Maintenance and Compensation Agreement
- 6) Resolution #1377-16, Authorizing JPA for Landscaping on Medians from Pond Creek to Chavers Street

12. CITY ATTORNEY'S REPORT

13. CITY CLERK'S REPORT

14. COUNCIL COMMITTEE ITEMS:

Finance - Chairman: Councilman Jimmy Messick

Item 295 Purchase of the CSX property in Downtown

Recommendation **Vote Required**

Committee recommends we not accept this offer and counter with an offer more closer to appraised value.

Cost \$0.00 **Funding Source**

TPO REPRESENTATIVE: COUNCILMAN JIMMY MESSICK

TDC REPRESENTATIVE: COUNCILMAN ALAN LOWERY

15. COUNCIL REPORTS:

16. MAYOR REPORT: WESLEY MEISS

17. CITY MANAGER'S REPORT:

18. OTHER BUSINESS:

Item 313 Police Pension Board Reappointment of Scarlett Ehlers

Description Scarlett Ehlers term expired July 2016 on the Police Pension Board. She is willing to serve another term.

Staff Recommendation **Vote Required**

Staff recommends reappointment of Scarlett Ehlers to the Police Pension Board for

Cost \$0.00 **Funding Source**

Item 312 Security Cameras at Field House and Landscape Building

Description Needed security cameras at both locations to deter vandalism

Staff Recommendation Vote Required

Staff recommends purchase of security cameras for the Field House and Landscape

Cost \$9,348.50 Funding Source Budget

Item 311 Authorization to make payment to Florida Municipal Insurance Trust for 1st Quarter Payment of FY2017

Description

Staff Recommendation Vote Required

Staff recommends authorization to make payment to Florida Municipal Insurance Trust for Workers Comp and General Liability 1st Quarterly Payment for FY 2017

Cost \$97,122.75 Funding Source Budget

Item 310 Highway 90 West JPA

Description State has provided a contract for signature covering the landscape improvements on Hwy. 90 between Dogwood Drive and Pond Creek. Contract also incorporates landscaping into FDOT safety improvements being constructed to the east from Chavers Street to Dogwood Drive.

Staff Recommendation Vote Required

Authorize city manager to sign contract as approved by Milton City Council Resolution

Cost \$225,000.00 Funding Source Grant

Item 308 Renewal of Contract with Red Cross for the Guy Thompson Community Center (GTCC).

Description The city has maintained a contract with Red Cross for office space in the GTCC and to take over management of the center when activated as an emergency shelter.

Staff Recommendation Vote Required

Approve renewal of contract with Red Cross for the GTCC

Cost \$0.00 Funding Source

Item 287 Multi-Jurisdictional Floodplain Mitigation Plan and the Plan for Public Information Progress Report.

Description As part of the City of Milton's annual recertification process for the National Flood Insurance Program (NFIP) staff is required to present the findings of the Flood Mitigation Task Force (FMTF) to Council. The FMTF has reviewed and evaluated both the Plan for Public Information (PPI) and the Flood Mitigation Plan (FMP). The evaluation reports will be presented on September 8, 2016 at the FMTF meeting. City of Milton Staff will present the aspects of these evaluation reports, specifically dealing with the City of Milton to Council on September 13, 2016. Presentation of these reports prior to the 13th shall not occur as the evaluations have not been adopted by the FMTF and changes may still ensue. As the City has partnered with Santa Rosa County and other local Municipalities in the creation of the PPI and FMP and has committed resources to the creation and maintenance of these documents, it is important that the City Council be made aware of any progress and or deficiencies of these programs. The City of Milton Council, the Media and the Public at large shall be made aware of the program evaluations on an annual basis. Documentation of Council review shall be submitted upon annual recertification. City Council is not required to act upon the evaluation reports.

Staff Recommendation

Receive report

Cost \$0.00 Funding Source

19. ADJOURN/RECESS:

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the City at least 48 hours before the meeting by contacting City Hall, 6738 Dixon Street, Milton, or by calling 983-5410.

"If any person decides to appeal any decision made by the board, agency, or commission, with respect to any matter considered at such meeting or hearing, he or she will need a record of the proceedings, and that for such purpose, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based." FS 286.0105

CITY COUNCIL MEETING
September 13, 2016
5:00 P.M.
GENERAL CONSENT AGENDA ITEMS

Public Works - Chairman: Councilman R. L. Lewis

Item 299 Replacement City Seal for Councilroom and Lobby

Action Committee recommends issuing a RFP for replacement of the City Seals in the City Hall Lobby and Council Chambers using the specification in the original acquisition

Cost: \$0.00 **Funding Source:**

Item 296 Amended FDOT Traffic Signal Maintenance and Compensation Agreement

Action Committee recommends approval of agreement as amended and adopted by formal resolution.

Cost: \$0.00 **Funding Source:** Budget

Public Safety - Chairwoman: Councilwoman Pat Lunsford

Item 294 Fire Department Auxiliary

Action Committee recommends establishment of an Fire Department Auxiliary with a Hold Harmless Agreement in place

Cost: \$0.00 **Funding Source:**

Growth & Development - Chairwoman: Councilwoman Ashley Lay

Item 293 Board Appointment for the Planning Board

Action Committee recommends appointment of Rebecca Jones to the Milton Planning Board, Ward 1 vacancy

Cost: \$0.00 **Funding Source:**

Item 268 Vacancies on the Board of Adjustments

Action Committee recommends Joffry Camp, Kristopher Long and Rex McLean to be appointed to the Board of Adjustments to fill the three vacancies

Cost: \$0.00 **Funding Source:**

Item 267 City Property Inventory

Action Committee recommends identified properties, except #6, be provided to the real estate agent for a determination of marketability and value

Cost: \$0.00 **Funding Source:** Budget

Item 298 Request for Proposals for Aging Assessment Grant

Action Committee recommends the city issue an RFP to select a vendor to meet the grant requirements.

Cost: \$30,000.00 **Funding Source:** Grant

Finance - Chairman: Councilman Jimmy Messick

Item 301 Transition City Hall Lighting to LED

Action Committee recommends we engage McCombs Electric to change over City Hall lighting to LED

Cost: \$11,000.00 **Funding Source:** Budget

Item 300 Right of Way needs for the King Middle School Sidewalks Project

Action Committee recommends for staff to determine scope of work following discussions with property owners and develop cost estimates.

Cost: \$0.00 **Funding Source:** General Fund Reserves

Item 292 FY 2017 Full Time Equivalent (FTE) and Pay Scale
Action Committee recommends approval of FY 2017 FTE's and pay scale.
Cost: \$0.00 **Funding Source:**

Administration - Chairman: Councilman Grady Hester

Item 248 Policies for Approval:
2.20 Employee Assistance Program
3.1 Time Off for Work in Connection with Court Cases
Action Committee recommends approval of the following policies:
2.2 Employee Assistance Program
3.1 Time Off for Work in Connection with Court Cases
Cost: \$0.00 **Funding Source:**

Item 288 Out of Town Travel for Diane Ebentheuer
Action Committee recommends approval of Out of Town Travel for Diane Ebentheuer for Government Financial Certification Testing
Cost: \$850.00 **Funding Source:** Budget

TPO REPRESENTATIVE: COUNCILMAN JIMMY MESSICK

TDC REPRESENTATIVE: COUNCILMAN ALAN LOWERY

MAYOR REPORT: WESLEY MEISS

CITY MANAGER’S REPORT:

OTHER BUSINESS:

Item 304 City of Milton/CRA Interlocal Agreement

Action Committee recommends approval of the City of Milton/CRA Interlocal Agreement

Cost: \$0.00

Funding Source:

Item 303 Bad Debt Write-off for August 2016

Action Bad Debt Write-off for August 2016

August \$4,641.51

FYTD \$58,071.32, less collections and gas fee account credit of (\$15,062.66) for a net total of \$43,008.66

Cost: \$0.00

Funding Source:

Item 302 Request for Out-of-Town Travel for Debbie Cates, Finance Department

Action Committee recommends approval for Out-of-Town Travel for Debbie Cates, Finance Department to attend the 2016 Fall Academy for the Florida Association of City Clerks in Orlando, FL on October 10-13, 2016

Cost: \$1,045.00

Funding Source: Budget

Santa Rosa County Multi-Jurisdictional 2016 Flood Mitigation Plan Evaluation Report

Introduction

Santa Rosa County first joined the Community Rating System in October 1993. The County has been an active participant in the development and implementation of the Santa Rosa County Local Mitigation Strategy (LMS) since its inception in the late Nineteen-Nineties. Until 2010, the LMS has also served as the community's floodplain management plan. Though the County has been able to make significant progress over the years using this plan, on January 6, 2009, the Local Mitigation Strategy officially authorized the formation of a Flood Mitigation Plan Task Force to develop a new plan, one that was specifically focused on flooding impacts to the entire community including the jurisdictions of Jay, Milton, and Gulf Breeze. This Task Force met consistently over a period of approximately twelve months and completed the Plan. On February 10, 2011, the Santa Rosa County Commission officially adopted the *Santa Rosa County Multi-Jurisdictional Flood Mitigation Plan*. On June 13, 2011 FEMA officially approved the plan. A copy of the plan is available at the Santa Rosa County Flood Plain Management Office and on the County's website.

In an effort to ensure that there is a continuing and responsive planning process, the following procedure is included in the Santa Rosa County Multi-Jurisdictional Flood Mitigation Plan (Section Eleven):

The Floodplain Management Plan Task Force responsible for the development of this plan shall meet annually in the month of August. Prior to the meeting, the Floodplain Manager and Grants and Special Projects Coordinator will jointly prepare a draft Floodplain Management Plan Evaluation Report that will be presented at the annual August meeting. The Task Force will review and discuss the report, after which it may be revised before the Task Force adopts it. The report shall include:

- *A review of the original plan*
- *A review of any floods that occurred during the previous calendar year*
- *A review of the action items in the original plan, including how much was accomplished during the previous year*
- *A discussion of why any action items were not completed or why implementation is behind schedule*
- *Recommendations for new projects or revised action items. Such recommendations shall be subject to approval by the County Commission as amendments to the adopted plan*

A Review of the Original Plan

A 5 year plan update of the *Santa Rosa County Multi-Jurisdictional Flood Mitigation Plan* has been completed. The Plan was approved by the State of Florida on May 18, 2016 and adopted by the Board of County Commissioners on May 26, 2016.

Santa Rosa County Multi-Jurisdictional 2016 Flood Mitigation Plan Evaluation Report

A Review of Any Floods That Occurred During the Previous Calendar Year

The county has multiple departments including the Emergency Operations Center, the Public Works Department and the Floodplain Management Office that record flooding events and these events are also documented in our Computer Department's and GIS records for future planning purposes. Since July 2015, when the last evaluation was completed, we have not experienced any significant heavy rainfall or flooding events.

A Review of the Action Items in the Original Plan

As a whole, the action plan has been very successfully addressed in the past and many items have been either pursued or completed effectively.

A Discussion of Why Any Action Items Were Not Completed

Action items that were not successful were discussed and either modified or replaced with an item deemed by the FMTF more likely to be successful.

Recommendations for New Projects or Revised Action Items

The *Santa Rosa County Multi-Jurisdictional Flood Mitigation Plan* has been in effect for approximately 6 years. During this time, many of the action items have either been completed or have progressed considerably. As a result of the April 30, 2014 Flood Event, many areas in the south end including Holley By the Sea, were identified as those needing additional stormwater/drainage improvements. As a result of input from Santa Rosa County Public Works and the Engineering department, the county submitted four new stormwater drainage projects through the HMGP program including the Pace Lane and Patterson Lane area (Pace); the Chipper and Maranatha Lane (Pace); the Ranchettes/Whisper Bay Subd (Gulf Breeze); and an additional project in Villa Venyce. Each project is currently in the design phase and construction is expected in 2017. Additional activities are ongoing related to the prioritization of projects in the Holley By The Sea Master Plan Study including identification of funding and a plan for implementation. The Local Mitigation Strategy Committee will continue to address these problem areas and adjust the LMS project priority listing for consideration of Mitigation Grant funding.

Santa Rosa County has been exceptionally active and proactive concerning flood mitigation since the development of the Flood Mitigation Plan. Following is a summary of some of the specific activities undertaken by the County to strengthen flood mitigation:

Community Outreach

As described further in the attached Plan for Public Information, the Floodplain Management Office works in coordination with the Emergency Management Division to conduct community outreach multiple times throughout the year and through various

Santa Rosa County Multi-Jurisdictional 2016 Flood Mitigation Plan Evaluation Report

activities and formats. Outreach by Stakeholders is also encouraged and supported by staff.

Floodplain Management

- Conducted 3 Realtor/Lender/Agent workshops.
- Participated as a panelist and made a presentation at the Gulf Coast Community of Practice Annual Meeting.
- Flyers produced by Florida Department of Emergency Management were distributed to kiosks and local agencies for availability to the public.
- Updated the floodplain website twice in 2016.
- Participated in SAFER Santa Rosa Expo for the 6th year on May 21, 2016.
- Working with the Santa Rosa County Tax Collector and the Public Information Officer to send out annual flood safety information with the Tax bills.

Emergency Response Preparedness

- Annual Hurricane Exercise (flood recovery) conducted May 18th 2016
- Participated in SAFER Santa Rosa Expo for the 6th year on May 21, 2016
- Participated in the Senior Expo on March 17, 2016.
- Participated in the Whiting Field Military Appreciation day May 13, 2016
- Distribute flood information at 'Love My Neighbor' event 28 Aug 16
- Discuss flood issues at Sunrise Kiwanis 10 Aug 16
- Had flood scenario in EOC activation exercise 18 May 16
- Santa Rosa PrepareAthon was 16-21 May with 17 may focused on "know"
 - Tuesday – Visit floodsmart.gov and our county page, plus our SM sites, media push for this, use all assets to include chambers to push information
 - Wednesday – Tornado drill, tsunami and flood will be the small scenarios we run on the day of our exercise (which is really a great way to educate of WebEOC)
 - Thursday – hold our open house and try to get FDs to do so as well.
- Discussed local hazards to include floods with Boy Scouts working on Preparedness badge
- Santa Rosa Hospital ER Grand Opening May 14, 2016
- Wal-Mart, Navarre, FL Safety Awareness Month June 25, 2016
- Santa Rosa County Employee Health Fair July 27, 2016

Major Drainage Improvement or other Mitigation Project Construction

- Evaluated severe repetitive loss listing for eligibility in the flood mitigation program to elevate structure.

Santa Rosa County Multi-Jurisdictional
2016 Flood Mitigation Plan
Evaluation Report

- Five properties were identified for further review for 2015. We are awaiting approval from FEMA on these applications.
- Submitted one application for 2016- 1139 Ceylon Ct.
- Elevation Project at 3135 Harrison St is complete.
- Elevation Project at 8120 Glenview Rd is complete.
- Elevation Project at 1690 College Pkwy is complete.
- Elevation Project at 6036 Saddle Club Rd is complete.
- Completed Phase II construction of Settlers Colony Project which was funded through an HMGP allocation. We are also pursuing additional funding through available HMGP allocations to expand/re-scope the project to allow for additional improvements in the vicinity. This project is current in EHP review with FEMA.
- Master stormwater/drainage study Holley By the Sea is complete.
- Recently completed the Settlers Colony HMGP project. The following are HMGP projects that are currently being designed-Venetian Way/Coronado Drive, Chipper/Maranatha Drive, Ranchettes, and Pace/Paterson Drive. Aquamarine Drive and Vestavia Way are HMGP project that will begin phase I design in September.

To obtain a copy of the *Santa Rosa County Multi-Jurisdictional Flood Mitigation Plan Annual Plan Evaluation Report*, contact:

Sheila Fitzgerald, Grants & Special Projects Director at 850-983-1848 or visit the following link:
www.santarosa.fl.gov/lms

A Review of the Action Items in the Original Plan

The Action Plan Items are shown below and an update on the progress made for each item is depicted in red:

1. Maintain the County's strong regulatory flood prevention standards, including:
 - o Utilization of 100-year design storm for development
 - o Closed basin design
 - o Lot grading plan
 - o Freeboard in all SFHAs
 - o Coastal A Zone Requirements – 200' of mht

This activity is conducted throughout the year. The County Floodplain Management Ordinance was updated (2016-07) on March 10, 2016 with the amendments to the Florida Building Code (2016-04) updated on February 25th, 2016. This was done so as to be in compliance with the Florida Model ordinance.

2. Prioritize addressing of flooding issues in repetitive loss areas and implement capital projects to mitigate flooding. Drainage issues should continue to be prioritized in the capital improvement program, particularly in repetitive loss areas. To supplement funding, the County must continue to be proactive in obtaining funding for this program. The following sources are recommended:
 - o Community Development Block Program
 - o Flood Mitigation Assistance Grant
 - o Hazard Mitigation Grant Program

As funding opportunities become available in the above referenced programs, the grants coordinator in consultation with the Public Works Assistant Director, County Administrator and CDBG consultant will discuss priority flooding issues and determine which projects should be submitted for funding depending on many factors including critical need, estimated cost of the project in comparison to the available grant budget and other factors. This activity is ongoing.

3. Implement County's Plan for Public Information.

The Public Information Outreach Strategy was formally replaced with the Plan for Public Information in July 2015. The Flood Mitigation Task Force met on September 22, 2016 to update the PPI. The updated list is attached.

4. Pursue appropriate grants to enhance flood mitigation, including one or more of the following:
 - o Flood Mitigation Assistance Grant
 - o Hazard Mitigation Grant
 - o Pre-Disaster Mitigation Grant
 - o Repetitive Flood claims
 - o Severe Repetitive Loss

The county submitted grant applications under the Hazard Mitigation and Severe Repetitive Loss Programs as appropriate.

5. Implement the following structural drainage projects previously identified in the Unincorporated County Mitigation Initiatives

- o Venetian Way/Coronado Dr
- o Chipper/Maranatha Dr
- o Ranchettes
- o Pace/Patterson Dr
- o Aquamarine Dr
- o Vestavia Way

The following are HMGP projects are currently being designed-Venetian Way/Coronado Drive, Chipper/Maranatha Drive, Ranchettes, and Pace/Paterson Drive. Aquamarine Drive and Vestavia Way are HMGP projects that will begin phase I design in September 2016.

6. Implement capital flood mitigation improvement projects in the following repetitive loss areas:

- o Settlers Colony
- o Villa Venyce

Three additional SRL properties located on Coral Strip Pkwy and Coquina Way within Polynesian Isles have been elevated. One property was acquired and demolished. Three additional properties have been submitted for elevation in the area (2014 and 2015). Hazard Mitigation Grant funded Stormwater drainage projects in the Greenbriar and Villa Venyce areas are believed to have aided these areas significantly during the April 30, 2014 flood event. An HMGP grant was approved for Settler's Colony (Villa Venyce) and Phase II Construction was completed in June 2016

7. Provide for shore/bank stabilization at Russel Harbor landing to protect Russel Harbor Rd. from further degradation and to prevent the loss of recreational opportunities.

Grant funds are needed to complete this project. Once funds have been identified, project will begin.

8. Implemented capital project in the City of Gulf Breeze to control flooding that occurs on Center Drive, Dracena Way and Russ Drive. The project will consist of underground drainage, stormwater treatment, and a stormwater pump system.

This project began in August 2014 and was completed April 2016.

9. Provide knowledgeable staff to assist citizens before, during and after an event to understand their repair/rebuilding/flooding/mitigation options.

This activity is conducted throughout the year. Staff members attend continuing education training to maintain/improve their level of knowledge. Staff also attended the Florida Floodplain Managers Conference in March 2016.

10. Update Flood Insurance Rate Maps (FIRMs) to include elevations in all Special Flood Hazard Areas.

This activity is currently underway. Preliminary maps were received on July 18, 2016 and are currently under review. The new maps revise a good portion of the county that were not indicating elevations and changing some properties in/out of the SFHA or the elevation requirements.

11. Identify all critical facilities located within Special Flood Hazard Areas (SFHAs) and make contingency plans for those facilities under the responsibility of the county and continue to work with other agencies to assist with their contingency plans, in the event of flooding.

This activity is conducted throughout the year.

12. The Emergency Management Director will implement the Post-disaster Mitigation Policy and Procedures outlined in Appendix R.

This activity is conducted on a post-disaster recovery basis.

13. The Emergency Management Plans Chief shall ensure that immediately prior to, during and after a hurricane or flood event, pertinent information will be posted concerning major points of interest, such as bridge and road closures, evacuation orders, emergency shelter locations and electrical outages, utilizing the following media:

- County website
- Email advisements
- Television Government Access Channel
- Electronic message boards
- Reverse 911 telephone system
- AlertSantaRosa.com
- Public Service Announcements through local media
- Brochure handouts at PODs
- Other social media as applicable

This activity is conducted on an as-needed basis and was utilized as appropriate during the last year.

14. The Emergency Management Director shall ensure optimal staffing of emergency management personnel to receive and respond to emergency events.

Staffing levels are routinely monitored and adjusted on an as-needed basis to ensure optimal staffing.

15. Continue to prioritize reduction of repetitive loss properties through various means of mitigation, updating repetitive loss forms and removing properties from Repetitive Loss List.

This activity is conducted throughout the year. AW-501's have or will be sent on properties mitigated.

16. Work with County Housing Program to provide education to home buyers regarding flood information.

County Housing asks for and receives a flood determination on all properties for which assistance is provided.

17. Continue to require that installation of stormwater management facilities made necessary by new development is the responsibility of the developer.

This is required by the Land Development Code as part of every site plan review.

18. Consider the relocation, mitigating or replacement of infrastructure currently present within the

Coastal High Hazard Area where state funding is anticipated to be needed, as identified in the Local Mitigation Strategy Priority List.

This activity is conducted throughout the year and action taken when appropriate.

19. Integrate response to flooded homes with appropriate response organizations (Red Cross, Baptist Association, etc).

This activity is conducted on a post disaster basis. Regular communication and training occurs between the county and response organizations to ensure optimal response efforts.

20. Continue active participation in the Severe Repetitive Loss Grant program.

Applications have been submitted through the SRL program for the last six of seven years. Only one application was submitted for 2016. However, five properties were identified and are awaiting FEMA review for the 2015 year cycle. Outreach to eligible homeowners is an ongoing effort, and two potential applicants have already been identified for the next funding cycle.

21. Assist with establishment of Disaster Recovery Center (DRC).

This activity is ongoing and we are ready to assist as needed.

22. Ensure citizens know how to contact FEMA post flood.

This activity is conducted on an as-needed basis. Information is contained on the county's website and in our disaster guides. All employees received an email with important information to give out to citizens which included FEMA assistance contact information and locations of DRCs.

23. Include notification of grants, loans and service availability in all County publications, seminars and websites that address flood mitigation.

Property owners of repetitively flooded properties are notified by the state and the county of the availability of grant funds. A press release is also generated when workshops are held notifying the public of the availability of grant funds. Social media was also used to spread the word about grant funding availability.

24. Maintain and enforce designation of Coastal Barrier Resources Act (CBRA) property.

Ongoing – this is done by staff on a daily basis.

25. Maintain strong working relationship with all state and federal agencies including Northwest Florida Water Management District in an effort to ensure that our regulations pertaining to floodplain management are equal to or are greater than their regulations.

Ongoing – this is done by staff on a daily basis. The Floodplain Manager is in contact with the NFWMD, State DEM, FEMA and other agencies.

26. Implement strict enforcement of best management practices for reducing erosion during development activity.

Erosion Control plan is part of site plan and WMD permit that has enforcement capabilities. This activity

is conducted throughout the year. The county's building inspection department has increased efforts to enforce the implementation of erosion control practices on the construction sites for single family homes and has hired a site inspector to further that effort.

27. Assist citizens with Letter of Map Amendment and Letter of Map Revision Paperwork.

Ongoing – this is done by staff on a daily basis. The Floodplain Manager has assisted numerous individuals with LOMA (Letter of Map Amendment) paperwork. Floodplain Manager reviews all LOMA and LOMR requests prior to being submitted to FEMA.

28. Encourage individual property owners to pursue percolation-oriented drainage improvements using best management practices through outreach and education. Drainage that seeps into the soil, rather than being directed out to the open water, provides multiple benefits. Not only does it mitigate flooding, but it also recharges the aquifer, enhances water quality, and reduces erosion.

This activity is ongoing throughout the year. Additional outreach efforts are needed and are currently being planned.

29. Review County Code of Ordinances to strengthen maintenance requirements of private stormwater management facilities.

Some challenges exist with implementation of this activity. County departments will continue to work toward coordination with appropriate agencies and property owners to review original site plan requirements and towards enforcement of such.

30. Consider acquisition of natural areas for parks or open space.

Policy 9.1.C.6 of the Comprehensive Plan requires the County to consider the acquisition of open space and natural areas on a continuous basis. This activity is ongoing.

31. Require designation of open space property for all major development.

Policy 9.1.A.1 of the Comprehensive Policy requires the designation of open space in the Mixed Residential/Commercial Future Land Use Category and Policy 9.1.C requires developments of regional impact, planned unit developments and other large residential developments to provide for parks and play fields. Since the 2007 economic slowdown, there has been very few, if any, major developments. As the economy improves, there should be more progress towards the satisfaction of this goal. Additionally, Future Land Use Elements within the Comprehensive Plan identify a maximum amount of impervious cover allowed.

32. The Emergency Management Director shall ensure adherence to the County's Comprehensive Emergency Management Plan, particularly in the event of evacuation orders.

This activity is conducted as appropriate.

33. The Public Works Department shall provide information on where to get sandbags to residents prior to impending floods. Public Works will have sand available for residents to fill sandbags.

This activity is conducted as appropriate and with the approval of appropriate administration. The County is prepared for distributions as the need arises.

34. Continue County's periodic inspection program of county maintained stormwater control structures to ensure the proper functioning of such structures.

A County inspection and maintenance crew, that utilizes inmate labor, is assigned the task of addressing all issues discovered relative to the functioning of our stormwater facilities. This activity is conducted throughout the year, and includes: the cleaning of debris and trash from the ponds, mowing, fence repair, and the cleaning of pond bottoms to restore percolation. The inmate squad is assisted by our District Crew when heavy machinery is involved.

35. Ensure that all public buildings that serve first response and critical emergency/public needs, including record/data collection and communication centers/infrastructure, are located outside of flood zones or flood-prone areas.

According to the data collected for the Post Disaster Redevelopment Plan the following structures that serve first response and critical emergency/public needs are located in flood zones or flood-prone areas: Milton EMS Station is in 0.2% ACF zone, Avalon Beach-Mulat Fire Dept Station #2 is in a 0.2% ACF zone, Milton Well #1 is in a 0.2% ACF zone, Navarre Beach Fire Dept is in an AE flood zone, Navarre Beach wells #2 & 3 are in an AE flood zone, Milton WWTP is in an AE flood zone, Navarre Beach STP & utilities office are in an AE flood zone, Jackson Pre-K School is in an AE flood zone, Santa Rosa County Courthouse is in an AE flood zone, and approximately 70 liftstations are in various flood zones. The county works to relocate and/or mitigate first response and critical emergency/public needs infrastructure as appropriate based on funding limitations and geographic needs.

36. Continue practice of correcting localized drainage problems so that the best possible drainage standards are maintained.

This activity is conducted throughout the year. County maintenance crews have focused drainage improvement activities on the areas that have demonstrated the need during prolonged periods of rain. Numerous projects to alleviate street and yard flooding have been conducted during the past 5 years.

37. Include separate updating of the *Flood Mitigation Plan* in the *Local Mitigation Strategy* 5-year updates.

Per the plan, separate updating of the *Flood Mitigation Plan* shall occur in conjunction with the *Local Hazard Mitigation Strategy* 5-year updates. The *Flood Mitigation Plan* is included as an appendix to the *Local Hazard Mitigation Strategy*. The 5 year update was completed and the plan was approved by the State of Florida on May 18, 2016 and adopted by the Board on May 26, 2016.

38. Incorporate into the County's review processes for infrastructure planning an assessment of the appropriateness of public capital improvements in coastal high hazard areas as identified in the Coastal Management Element of the Comprehensive Plan. (EAR Policy 10.1.B.2)

This activity has occurred.

39. Evaluate the Flood Mitigation Plan, and particularly the Action Plan, annually.

Currently underway. The Flood Mitigation Task Force met on September 22, 2016 to evaluate the plan and the action plan. Evaluation Report made available to the public on the county's LMS page.

40. Consider expansion of the County's properties that are designated natural and beneficial areas.

Policy 9.1.C.6 of the Comprehensive Plan requires the County to consider the acquisition of open space and natural areas on a continuous basis. This activity is ongoing.

41. Encourage designation, protection and maintenance of wetlands as identified in the Comprehensive Plan and Land Development Code.

This is conducted as part of the site plan review process for every building permit.

42. Support efforts of the Institute of Food and Agricultural Services (IFAS/County Cooperative Extension Service) and the Natural Resources Conservation Services (NRCS) as it relates to reduction and mitigation of flood hazards to crops and silvicultural operations.

This activity is conducted throughout the year with the financial support of the County to these agencies.

43. Investigate the feasibility of including base flood finished floor elevations on Certificates of Occupancy.

Ongoing – this request has been submitted to the Computer Department. They will incorporate as staff time is available. The elevation certificates are currently available on the property appraiser's website.

44. Continue County participation in, and compliance with the National Flood Insurance Program (NFIP) and the Community Rating System (CRS). Seek CRS classification improvements within capabilities of County programs, including adoption and administration of FEMA-approved ordinances and flood insurance rate maps (FIRMs).

Ongoing – this is done by staff on a daily basis. Currently working towards Class 4; however, this may not be feasible until a County wide drainage plan is produced. CRS 3 year cycle visit was conducted in October 2015. Preliminary results indicate that we will maintain our class 5 rating. We have the points to be awarded a class 4, but do not meet the pre-requisites.

45. Develop Holley by the Sea Master Drainage Plan.

Master stormwater/drainage study has been completed. Individual projects are being prioritized and funding is being pursued.

46. The replacement of the box culvert, at the Alabama Street crossing of Collins Mill Creek, with a bridge.

Grant funds are needed to complete this project. Once funds have been identified, project will begin.

City of Milton Annual Evaluation of the Plan for Public Information

The Plan for Public Information or PPI, has been developed through the joint efforts of the Santa Rosa County Flood Mitigation Task Force. The City of Milton adopted the PPI on October 13, 2015. The PPI was developed, adopted, and implemented for the purposes of improving communications with residents to ensure that information about flood hazards, flood safety, flood insurance, natural floodplain functions, and other important information about flood protection and preparedness are provided effectively. To that end the joint task force identified a number of actions that the City should take to ensure the safety of its residents.

The PPI was reviewed by the Flood Mitigation Task Force (FMTF) on September 8, 2016. The attached PPI table is the outcome of the meeting. There was one addition to the original table, item number 13.

The original PPI proposed the following numbered points. City actions and activities in response to the identified need/project/program are indicated in **red**:

1) Conclusion: There are no VE Zones within the jurisdiction of the City of Milton. Therefore, there are no recommendations for this zone.

2) Conclusion: The numbers of flood insurance policies in the B, C or X zones are very low.

- Recommendation: An effort should be made to inform property owners about the potential flood hazard and that homeowners insurance does not cover flooding damages.

Outreach Materials targeting all City residents contained messages speaking directly to the existence of flood hazards outside of the SFHA. The outreach also indicated that City and County staff can provide further information on individual flood hazards. Outreach materials also specified that homeowners insurance alone does not cover flood damages.

- Recommendation: Reach out to renters and inform them of contents coverage availability.

The outreach material targeting all City Residents contained a message directed at renters indicating that they can purchase contents coverage to protect their belongings during a flood event.

3) Conclusion: The numbers of policies in the A, AE Zones are relatively low, most are not covered by flood insurance.

- Recommendation: An effort should be made to encourage policy holders to maintain their flood insurance.

The outreach materials does not speak to plan maintenance specifically. However, there is a message directing residents to prepare for flooding and hurricane season by checking their insurances policies and coverages.

- Recommendation: An effort should be made to inform property owners who do not have flood insurance due to various reasons, to purchase flood insurance.

Nearly all outreach instruments contain a message to residents to purchase flood insurance. The all-city outreach identifies through, monetary examples of premium amounts verse average flood damage amounts, the importance of coverage.

- Recommendation: Reach out to renters and inform them of contents coverage availability. See 2) above.

4) The PPI identified Other Public Information Efforts:

City of Milton	
Project	Message
Annual Repetitive Loss Mailing	Flood Insurance, Property Protection
High Water Mark Initiative	Flood Risk Awareness
Yellow Pages	Flood risk awareness, safety, mitigation, maps, elevation certificates

The City has provided through various outreach instruments all of the indicated messages. The City did not utilize the Yellow Pages this last year. Other means of outreach, like newspaper articles, can achieve similar results. SRC does use the Yellow Pages for the dissemination of the identified messages. Staff believes the City may be able to “piggy back” on the message for CRS credit in Activity 330. The High Water Mark Initiative has not been completed.

5) The PPI further proposed the following projects to support the various outreach messages:

- Annual Repetitive Loss Mailings ** Investigate the possibility of including this information into the Trim Notices. Investigate possibility of using postcards for mail outs.

Staff has identified the City’s Repetitive Loss Areas. The annual Repetitive Loss mailings were expanded to include all insurable structures within those areas, not just the few Repetitive Loss Properties that the City has historically provided materials to. Staff did not investigate the inclusion of the message in the Trim Notices or other. Karen Thornhill, with the County has indicated she is looking into these other methods.

- Websites

(SRC -<http://www.santarosa.fl.gov/developmentservices/floodmanagement.cfm>)

Post flyers, and other documents covering all six topics and links to other local sites, floodsmart.gov, State DEM, FEMA and other pertinent websites. Update at least 1 time per year – more frequently as needed. Stream Dumping shall be on both the flood web page and the Road and Bridge Web page.

Staff has ensured that the City’s webpage contains all of the pertinent messages and materials that will provide the best and most information to include the necessary links and documents. Staff updated and checked link statuses on August 16, 2016.

- Flood Safety Awareness Week – in coordination with the National Flood Safety Awareness Week done by NOAA

The City Participates in at least one of the Disaster/Flood/Hurricane Events put on during this week long event. Chief Rebel or another representative usually attends.
